IN SPECIAL RECOGNITION OF BILL  
AND HELEN LOTT ON THE OCCA-  
SION OF THEIR 60TH WEDDING  
ANNIVERSARY

**HON. PAUL E. GILLMOR**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 29, 2000*

Mr. GILLMOR. Mr. Speaker, today I recognize a very special couple from the state of Ohio. Mr. Speaker, on Friday, June 30, 2000, in the presence of many of their family members, neighbors, and friends, Bill and Helen will celebrate a milestone day in their lives—the celebration of their sixtieth wedding anniversary.

Mr. Speaker, the celebration of the sanctity of marriage is one of our most cherished and time-honored traditions. Throughout the ages, husbands and wives have reaffirmed their trust, faith, and most importantly, love for each other on their wedding anniversaries. On this most treasured day, we, as their friends, neighbors, coworkers, and family members, have the opportunity to recognize them for their commitment, their sharing, and their love for each other.

The day on which two people are united in marriage is much more than simply a ceremony, with wedding vows and the exchanging of rings. It is the true union of two individuals who then become one, inseparable entity. It is the common bond and an unwavering dedication to each other that enabled their marriage to grow and flourish.

Mr. Speaker, for the past 60 years, Bill and Helen have shown how love, compassion, and conviction are the cornerstones of their long and lasting marriage. Their strong commitment to each other is an example for each of us to follow.

Mr. Speaker, at this time, I would ask my colleagues in the 106th Congress to stand and join me in paying very special tribute to Bill and Helen Lott on the occasion of their 60th wedding anniversary. May the love and happiness they have found stay with them far into the future. Again, best wishes and congratulations on sixty wonderful years together.

THE U.S. CAPITOL POLICE  
DEPARTMENT

**HON. LORETTA SANCHEZ**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 29, 2000*

Ms. SANCHEZ. Mr. Speaker, today I address on the subject of funding for the U.S. Capitol Police.

The House has now passed legislation ensuring appropriate funding levels for this law enforcement division.

This Congress should take every opportunity possible to salute the police officers of this nation, as I do for those who serve my Congressional District in Orange County.

Our nation loses an officer almost every other day; we've lost three Capitol officers in the line of duty. And that doesn't include the ones who may be assaulted or injured.

The calling to serve in law enforcement comes with bravery and sacrifice.

The thin blue line protecting our homes, our families and our communities—and the foremost symbol of American freedom and democracy—pays a price, and so do the loved ones they leave behind when tragedy strikes.

They shouldn't have to do this dangerous job with inadequate resources.

We have a responsibility to see that law enforcement—particularly those who guard the Capitol—have the resources they need.

I want to recognize my colleagues for their support of necessary funding for the U.S. Capitol Police force.

PRESCRIPTION DRUG COVERAGE  
FOR SENIORS

**HON. MICHAEL P. FORBES**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 29, 2000*

Mr. FORBES, Mr. Speaker, I'd like to submit a letter I received from Adam Zaveski of Southold, Long Island. Mr. Zaveski describes about his personal situation and the financial strains he and so many other seniors are experiencing.

DEAR MR. FORBES: I am writing this letter to let you know how some of our Senior Citizens have to live. I am 98 (and 5 months) years old and not able to do any work, blind in one eye, can't hear [any] word[s] hardly at all and can't hardly walk. I have to live on \$530.00 a month [from] Social Security and have a small income which, I have with my daughter who I live with. [It is] \$140.00 a month [and] she does not take any of it. She gives it all to me to pay for my medicine.

I have 5 prescriptions which cost me \$23.00 for one pill and I use 5 every day which runs into \$115.00 for 100 pills. I pay \$60.00 for EPIC and \$130.00 a month for [supplemental insurance through] AARP. Other medicines I pay [for] in cash.

You politicians do not realize that us Old Timers never got into the high wages that they get today. I used to farm for a living [and] only made a living. What money I had I spent on my wife. She had diabetes and had both feet amputated and spent 6 months in [the] hospital. I had no insurance and Medicare paid for 3 months and [I] had to pay the rest.

I think I [have] done some good in the country while I was young. I belonged to [the] Fire Department [for] 60 years and I was a Trusted Lieutenant, Department Chief, and a Fire Commissioner for 9 years. 20 [years as a] School Trustee, 7 years [on the] 4H Executive Board, 40 [years as a] Farm Bureau Trustee and a political Trustee for 25 years.

Thank you,

ADAM ZAVESKI.

There are thousands of Mr. Zaveski's across this Nation who have given so much to make this country great. In their time of need, let's not turn our backs.

Now is the time that this Congress heard the pleas of our seniors and help Mr. Zaveski and others. Now is the time to pass a reliable,

affordable and comprehensive Medicare prescription drug plan.

MEDICARE Rx 2000 ACT

SPEECH OF

**HON. JIM KOLBE**

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, June 28, 2000*

Mr. KOLBE. Mr. Speaker, I believe every senior citizen should have insurance coverage for prescription drugs. Pharmaceuticals are increasingly an important part of modern medicine, and the cost of prescription drugs is rising faster than most seniors can afford. The truth is, however, that most seniors already have drug coverage, and some have excellent coverage. According to the Health Care Financing Administration (HCFA), 65% of Medicare beneficiaries already have prescription drug coverage, either through their former employer, through Medicaid or through the Medicare+Choice program.

Unfortunately, over 13 million remaining seniors have no prescription drug coverage at all. Often, these individuals are low-income seniors or people with large prescription drug costs (due to multiple medications). Sadly, these people often must choose between buying groceries or taking their medication. This travesty must not continue unabated.

I believe we can help low-income seniors while preserving and strengthening Medicare for current beneficiaries and future generations. Moreover, I think we can do this without increasing premiums of jeopardizing the fiscal stability of Medicare.

H.R. 4680, the bipartisan Medicare prescription drug bill accomplishes these goals.

For those seniors who have drug coverage, the bipartisan plan won't change a thing. These seniors would continue to enjoy the benefits of their existing plan, if they choose. For those seniors who do not have coverage, this plan will help them obtain coverage through Medicare. By doing this, the federal government can reduce drug prices for all seniors.

Specifically, H.R. 4680 would:

Lower drug prices and expand access to prescription drugs for all beneficiaries.

Protect seniors against higher drug prices and runaway out-of-pocket costs.

Subsidize insurance premiums and prescription drug purchases for low-income seniors.

Expand an individual's right to choose the coverage that best suits their needs through a voluntary and universally-offered benefit.

Preserve and protect Medicare to keep the program solvent for our children and grandchildren.

Ensure that today's scientific research and medical innovation will continue to find tomorrow's cures.

Invest \$40 billion to modernize and strengthen Medicare.

I encourage my colleagues to support this bill.
